The Smartest Guys In the Room is a well-written, well-researched attempt to unravel the financial shenanigans that led to Enron's bankruptcy. It's a compelling (and sometimes soapy) indictment of the worst side of business, and it queasily foreshadows the financial crisis of 2008.

Best Summary The Smartest Guys in the Room by Bethany

The Smartest Guys in the Room chronicles the history of Enron, from beginning to end. Putatively, it began with good intentions and a believable vision. Then, as it focused on short-term stock prices, it became corrupted by deceptive accounting, making more egregious bets.

Enron The Smartest Guys in the Room 2005 IMDb

'The Smartest Guys in the Room' tells some of the story of Enron's collapse: and it's a compelling tale, although I found the use of background music rather annoying (the story is divided up into titled sections, with each section being the name of a song, which feels rather heavy-handed and obvious).
